### Codes and definitions:

- \* - Shrub
- \*\* - not Michigan genotype
- \*\*\* - beard on
- \*\*\*\* - vine

### Bloom time:

For wildflowers: the months in which the plant is typically flowering.

For grasses: warm season denotes actively growing when soil is warm; cool season denotes actively growing when soil is cool.

### Moisture:

- W = wet - wet soggy
- WM = wet mesic - heavy with moisture for long periods, but can dry up in summer
- M = mesic - medium moisture
- DM = dry mesic - moisture drains readily
- D = extremely dry

### Sun:

- PS - partial sun, woodland edge
- S - full sun opening

### A note about cover crop...

*If you are seeding on bare soil or slope, we recommend including a temporary cover crop at a rate of 15 lbs. per acre, \$2/lb.*

*If you have large acreage, we suggest finding cover crop locally as they are commonly available and are heavy, adding substantially to your shipping cost with us.*
